AEROLITE to deliver interiors for six new Svenskt Ambulansflyg Pilatus PC-24

AEROLITE, as a market leader in EMS Installations, is proud to announce a further order of six full EMS Medical Interiors for the Pilatus PC-24 EMS Aircraft.

These Aircraft will be delivered to the Swedish National Air Ambulance Organization (Kommunalförbundet Svenskt Ambulansflyg).

This will allow AEROLITE and our customer Pilatus Aircraft Ltd to gain a foothold in the European Market. We are extremely pleased that after successful deliveries to the RFDS in Australia, we now also have a European Customer.

Roland Hengartner, CEO of Aerolite AG commented as follows:

"We certainly look forward to equip many more Pilatus PC-24 Super Versatile Jets for the EMS Market in the future and see it as a great platform to show the full capabilities of our EMS Equipment".

AEROLITE is a leader in design, engineering, production and installation of state-of-the-art Air Medical – and Corporate interiors. Our knowhow is based on over 500 delivered EMS and other interiors. The company hold EASA DOA, POA and MOA approvals and is ISO 9001, EN9100 and ISO 13485 certified.
